ADJUSTABLE RATE MORTGAGE LOAN PROGRAM DISCLOSURE 3/1 JUMBO ARM

This disclosure describes the features of an Adjustable Rate Mortgage (ARM) program you are considering. Information about our other ARM programs will be provided upon request.

HOW YOUR INTEREST RATE AND PAYMENT ARE DETERMINED:

- After the first three years of your loan, your interest rate will be based on an index rate plus a margin. Please ask us for our current interest rates and margins.
- The index is the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year. Index values are published by the Federal Reserve in Statistical Release H.15 (519).
- Your initial interest rate for the first three years of your loan is not based on the index used to make later adjustments. If the initial interest rate is below the sum of the then-current index plus margin (the "fully indexed rate"), then the initial interest rate will be a "discounted" interest rate. If the initial interest rate is above the fully indexed rate, then it will be a "premium" interest rate. Please ask us for the amount of our current interest rate discounts and premiums.
- Your payment will be based on the interest rate, loan balance, and remaining loan term.

HOW YOUR INTEREST RATE AND PAYMENT CAN CHANGE:

- Your interest rate can change after 3 years and annually thereafter.
- Each time your interest rate changes, the new interest rate will equal the sum of the index plus the margin, subject to the following limits:
 - Your interest rate will be rounded to the nearest 1/8 percent.
 - Your interest rate will not increase or decrease by more than 2.0% per adjustment.
 - Your interest rate will not increase by more than 5.0% over the term of the loan.
- Your payment can change each time the interest rate changes and can increase or decrease substantially based on changes in the interest rate.
- For example:

On a \$10,000, 30-year loan with an initial interest rate of **6.250%** in effect in **July 2008**, the maximum amount that the interest rate can rise under this program is 5 percentage points, to **11.250%**, and the monthly payment can rise from a first-year payment of **\$61.58** to a maximum of **\$94.31** in the **6th** year. To see what your payment would be, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. (For example, the monthly payment for a mortgage amount of \$60,000 would be: $\$60,000 / \$10,000 = 6$; $6 \times \$61.58 = \369.48 per month.)
- You will be notified in writing at least 25, but no more than 120, days before the due date of a payment at a new level. This notice will contain information about the index, your interest rates, payment amount, and loan balance.

ASSUMABILITY

- This loan is not assumable until after the initial fixed interest rate changes to an adjustable interest rate.

I have received a copy of this ARM program disclosure.
